

Mikko Lempinen

mikko.lempinen96@gmail.com

Goal oriented and highly motivated individual with competence and experience from several different fields. Eager to learn new things with commitment to life-long learning.

EDUCATION AND QUALIFICATIONS

University of Oulu, Computer Science & Engineering **2020 - Present**

Subsidiary subjects: Artificial Intelligence

Excelled in practical projects, especially group projects where I was able to take the leadership role and inspire other team members.

Bachelor's Degree will be complete in 06/2023.

University of Oulu, Process Engineering **2017 - 2019**

Subsidiary subjects: Industrial business and management, Economic science

PMAF Project Management Foundation Certificate

Certificate for IPMA Level D Project Management Competence

Military service in Lapland's Air Defense Regiment **2016**

- **Air Defense Personnel Course**
- **Bookkeeper Course**

Single-handedly managed the bookkeeping of our battalion.

Took part in developing a modernized information delivery system for our base and was responsible of setting it up.

WORK EXPERIENCE

Independent equities and derivatives trader **2019 - Present**

Trading equities and futures profitably using strategies based on financial (or on-chain) data analysis, psychological patterns, and macroeconomics.

Used to working ~ 20 hours a day for weeks straight when timing, executing, and monitoring a high-risk derivatives trade.

30-day trading volume up to 1.2M\$.

Outokumpu Chrome Oy**05/2019 - 09/2019****05/2018 - 09/2018**

Worked in a ferrochrome production team as a melt handler.

Responsibilities were, inter alia, monitoring the molten metal casting process, separating ferrochrome from slag substances, and sampling ferrochrome and slag substances.

The fastest person to learn the work my instructor had seen.

During my 3rd month on the job, our smeltery broke the record for most ferrochrome produced in a month in the company's 30-year-old history.

Statistically the company's most valuable melt handler in terms of amount of ferrochrome produced during work hours.

Geobotnia Oy**06/2017 – 09/2017**

Worked as an assistant for certified geo-drillers.

Did industrial grade geographic measurements of work sites.

PROGRAMMING EXPERIENCE
